**erlang institute**

*Starts : August 21<sup>st</sup>*

## *BIPA Curriculum Insight and Practice*

*Insight and Practice into Curriculum of Indonesian Language for Foreigners*

When non-native speakers of English choose to study at foreign universities, especially in the United States, United Kingdom, Australia, New Zealand, Canada, TOEFL® (Test of English as a Foreign Language) is the standardized test of choice to measure proficiency in English. When foreigners live in Indonesia, the Indonesian Language Proficiency Test (UKBI) measures a foreigner's ability to understand and speak the Indonesian language. Erlang Institute (education and training center) provides language training to foreign speakers (BIPA) through a holistic approach covering culture, communication, and film. Participants gain a better understanding of Indonesian language and culture and receive a certificate.
